Costa has marked their excellence in construction once more, taking out two awards at the 2011 Housing Industry Association Queensland Housing Awards.

The family operated business continued a record of industry recognition by achieving awards of 'Display Home of the Year' and 'Best Townhouse/Villa Development'.

The Costa team namely, Frank Gentile, Dean, Tony and Frank Costa were overjoyed with the night's results, but were quick to point out that the commitment to their clients is their main motivation, and awards are merely an acknowledgment of this ethic.

"Our business is built on our reputation and we ensure that we build a close relationship with our clients based on our attention to detail and consistently performing beyond their expectations," Director Dean Costa said.

Frank Gentile is proud that Costa has proven their dominance in the challenging building industry.

"We take pride in making an impact on our clients and maintaining sustainable principles and involvement from design to completion.

"Despite an economically unpredictable market, we live by our mission: 'excellence, luxury, and lifestyle'.

"A Costa home has a timeless appeal that will be fashionable in future eras," Mr Gentile said.

In the following days, Costa competed in Stockland's Brightwater Billycart Cup, which was a successful and enjoyable event for the whole family.

Costa effortlessly took out the builder's category for their race.
