

## Coast winner :

# Attention to detail pays dividends

### Multi-level masterpiece a winner

A DESIRE for perfection and attention to detail has paid dividends for a locally owned building company at the recent HIA Sunshine Coast Wide Bay Housing Awards.

Costa Constructions picked up the prestigious Custom Built Home Award for houses priced between \$750,000 to \$1 million.

The multi-level masterpiece on Kawana Island has four levels, featuring a semi underground carpark for six cars, leading onto the main living area encompassing a media room and one ensuite guest bedroom, kitchen, dining and three separate living/entertaining areas.

The next level has two more guest bedrooms with a two way bathroom and study and finally the top floor has a master bedroom and ensuite with large balcony overlooking the canal and northern aspect.

The 4.5m high entrance foyer connects to the outdoor pool via a waterfall entrance feature which runs under the walkway and into the pool which wraps around the outdoor entertaining area.

Operations Manager Frank Gentile said the award is testament to his company's commitment to building the best quality homes on the Sunshine Coast.

"Building is not just a job for us, it's a family passion which we are very proud of," Mr Gentile said.

"The company, through patriarch Frank Costa, started building homes on the Sunshine Coast in 1977 and its commitment to high quality, premium homes commenced from day one.

"Our goal is to maintain a small family business model which enables us to maintain a strong customer focus, this approach allows us to concentrate on

attention to detail and provide hands on personal service to our customers," he said.

Adrian Langford HIA Sunshine Coast Branch Manager said Costa Constructions was a worthy winner in a fiercely competitive market segment.

"The win proves how a local family owned building company can be up there with the best.

"Costa Constructions has been multi-award winners in the past and it's no surprise it continues to impress the judges and their clients," Mr Langford said.
